

challenging cases in musculoskeletal pdf

The sequence of data collection is given in Table 2, which consisted of person interviews in the clinic immediately before and after the consultation with the clinicians. Consultations ranged from 20 to 45 min. Clinician interviews about these consultations were undertaken at a convenient time later on the same day.

Low Back Pain Guidelines from Around the World A Chiro.Org article collection A new addition from the American College of Physicians (2017) recommends the use of noninvasive, non-drug treatments for low back pain before resorting to drug therapies, which were found to have limited benefits. One of the non-drug options cited by ACP is spinal manipulation.

Compartment syndrome is a condition in which increased pressure within one of the body's anatomical compartments results in insufficient blood supply to tissue within that space. There are two main types: acute and chronic. Compartments of the leg or arm are most commonly involved. Symptoms of acute compartment syndrome (ACS) can include severe pain, poor pulses, decreased ability to move ...

Knee replacement, also known as knee arthroplasty, is a surgical procedure to replace the weight-bearing surfaces of the knee joint to relieve pain and disability. It is most commonly performed for osteoarthritis, and also for other knee diseases such as rheumatoid arthritis and psoriatic arthritis. In patients with severe deformity from advanced rheumatoid arthritis, trauma, or long-standing ...

Features . Fuming We warned over 30 years ago that diesel fumes were deadly, with millions at risk at work every day. If the authorities had listened then, today's diesel exhaust driven public health catastrophe could have been averted. Hazards editor Rory O'Neill reveals the criminal acts that left a working generation exposed and cost tens of thousands their lives.
