California Infant/Toddler Learning & Development Foundations

The Masters in the Foundations of Clinical Psychology offers a curriculum in which the central aim is to provide an educational experience which sets the profession of Clinical Psychology into a European and International context.

MSc Foundations of Clinical Psychology Masters

The Master's Degree Program in Clinical Research is a two academic year course of study (19 calendar months; 7 academic quarters) intended for scholars who desire rigorous training in the methods and conduct of clinical research, which is defined broadly as any health-related research where individual human beings or groups of human beings are the unit of observation.

TICR Master's Degree Program In Clinical Research

Clinical psychology is an integration of science, theory, and clinical knowledge for the purpose of understanding, preventing, and relieving psychologically-based distress or dysfunction and to promote subjective well-being and personal development. Central to its practice are psychological assessment, clinical formulation, and psychotherapy, although clinical psychologists also engage in ...
