Geography. The city is situated along a gulf of the same name in the Aegean, with the island of GÃ¼vercin Ada connected to the mainland by a narrow passage on one end, and the mountain of Kese Dağları behind.. It is located 95 km (59 mi) south of İzmir, the area's metropolitan centre, and 71 km (44 mi) from the provincial seat of Aydın. Its neighbours are Selçuk from north, Germencik from ...

Rice production in Vietnam in the Mekong and Red River deltas is important to the food supply in the country and national economy. Vietnam is one of the world's richest agricultural regions and is the second-largest (after Thailand) exporter worldwide and the world's seventh-largest consumer of rice. The Mekong Delta is the heart of the rice-producing region of the country where water, boats ...

We, all of us, are rapidly running out of time. If the biosphere is not soon freed from the ongoing global climate engineering assault, there will very soon be nothing left to salvage of our once thriving planet.. Photo credit: Oregon Air National Guard. If we are to have any chance of altering our current course in time to make a difference, the effort will take all of us.
