How can we best identify, understand, and deal with ethical and societal issues raised by healthcare robotics? This paper argues that next to ethical analysis, classic technology assessment, and philosophical speculation we need forms of reflection, dialogue, and experiment that come, quite literally, much closer to innovation practices and contexts of use.

Frugal innovation or frugal engineering is the process of reducing the complexity and cost of a goods and its production. Usually this refers to removing nonessential features from a durable good, such as a car or phone, in order to sell it in developing countries. Designing products for such countries may also call for an increase in durability and, when selling the products, reliance on ...

In 1955, Ricoh launched its first office copier, the Ricopy 101. The product became widely popular in the late 1950s, sparking the coining of the term “make a Ricopy,” meaning to “make a copy” in Japan, a representation of the brand that came to be recognized as being synonymous with the concept of duplication.
